November 6, 2012

To Whom it May Concern,

I am writing on behalf of Kenneth Buzo. He was a student of mine during his final semester in the nursing program at Henry Ford Community College. Specifically, Kenneth was a student of mine in the Maternity course and in the corresponding clinical component for the course. He was consistently able to apply lecture content to the clinical area and would ask appropriate questions. Kenneth's post conference discussion participation reflected a sound grasp of theory content as did his care plans and client assessments. His paper work was exceptional and always submitted on time. All written work was detailed, thorough, neat, and professional. Additionally, he was intelligent and motivated.

Mr. Buzo was consistently on time and prepared for clinical. He demonstrated appropriate clinical skills and critical thinking abilities. In addition, Kenneth has a kind, caring demeanor that makes him effective with clients and their families. His documentation was clear and concise. He was able to complete the required charting without assistance. Kenneth's direct care was complete and efficient. His first clinical day, the unit resource nurse complimented his attitude and work ethic. He engaged fully in the clinical rotation, seeking out learning opportunities. He worked well with staff and peers and successfully completed all course and clinical requirements. I can confidently recommend Kenneth for a staff nurse position at an acute care institution. He would be a great asset for any agency. Feel free to contact me if you have any questions. I can be reached at 313-317-1529 or by email at jmbartos@hfcc.edu.

Sincerely,

Janice M. Bartos, RN, MS, CNM
Henry Ford Community College
